

Press Release
Kansas Commission on Disability Concerns
April 26, 2011

The 2011 Disability Mentoring Day (DMD) will officially be held on Wednesday, October 19 across Kansas and the United States. DMD is a national program of the American Association of People with Disabilities (AAPD) which was started 12 years ago in 1999 as a small program in the White House with 12 students. Now DMD local programs are held in communities in every state and internationally. The program works with students and job seekers with disabilities to do career exploration through job shadowing, tours of local businesses, panel discussions, college tours, job readiness workshops, and career fairs.

For information on how to start a local Disability Mentoring Day committee in your community or connect with one that may be already in place, contact the state coordinator, Kerrie Bacon at (800) 295-5232 or kbacon@kcdcinfo.com.

For National Release...
